

Cortical Cancellous Spacer - CCS

Produced From: Femur, Tibia
Preservation: Freeze-Dried

Features:

- Computerized Numerical Control (CNC) machined to precise specifications
- Texturized to resist migration and increase surface contact
- Cortical wall maximizes compressive strength
- 14.5 x 11.5mm and 14 x 14mm footprint sizes available
- Large 7mm hourglass shape cancellous plug promotes osteoconduction
- Lordotic slope is 3.5° on superior and inferior surfaces
- Available lordotic or parallel

Cortical Spacer

Produced From: Femur, Tibia
Preservation: Freeze-Dried

Features:

- CNC machined to precise specifications
- Texturized to resist migration and increase surface contact
- Cortical wall maximizes compressive strength
- 14.5 x 11.5mm and 14 x 14mm footprint sizes available
- Hourglass shaped void for additional grafting materials
- Lordotic slope is 3.5° on superior and inferior surfaces
- Available lordotic or parallel

Tricortical Cancellous Wedge

Produced From: Iliac Crest
Preservation: Freeze-Dried

Features:

- Three-sided cortical ridge for increased compressive strength
- Cancellous matrix promotes osteoconduction and vascularization
- Available lordotic or parallel
- Lordotic slope is 3.5° on superior and inferior surfaces

Uncortical Cancellous Spacer

Produced From: Femoral Condyle, Femoral Head, Talus
Preservation: Freeze-Dried

Features:

- Machined to precise specifications
- Cancellous matrix promotes osteoconduction and vascularization
- Cortical ridge for added strength and stability

- LifeLink is a **Non-profit Tissue Bank** that maintains tissue integrity while offering the safest tissue to patients in need
- LifeLink has a strict acceptance criteria and each donor goes through comprehensive serologic testing
- NO adverse events in over 1 million allografts transplanted; 30 years in tissue banking
- LifeLink Tissue Bank is accredited by the American Association of Tissue Banks (AATB) and meets or exceeds all FDA and industry standards

Note: All spinal allografts are gamma irradiated. Items listed do not reflect LifeLink Tissue Bank's complete inventory of allograft tissue. This is merely a representation of the types available. For a complete list of our allografts, please contact us or visit our website.
