Posterior Tibialis Tendons

Preservation: Frozen

Patella Tendon w/ Strut- Half

Produced From: Tibia, Patella

Preservation: Frozen

Quadriceps Tendon

Produced From: Quadriceps Tendon/
Patella

Preservation: Frozen

- LifeLink is a **Non-profit Tissue Bank** that maintains tissue integrity while offering safe tissue to patients in need
- LifeLink uniquely provides two different catalog numbers to distinguish between aseptically processed and terminally sterilized tendons
- No hydrogen peroxide or harsh chemicals are used during processing of sports tissue allografts
- LifeLink has strict acceptance criteria and each donor goes through comprehensive serologic testing
- No adverse events in over 1 million allografts transplanted; 35 years in tissue banking
- LifeLink Tissue Bank is accredited by the American Association of Tissue Banks (AATB) and meets or exceeds all FDA and industry standards

Note: Items listed do not reflect the LifeLink Tissue Bank complete inventory of allograft tissue. This is merely a representation of the types available. For a complete list of our allografts, please contact us or visit our website.

LifeLink Tissue Bank
